

Infant and Toddler Chiropractic Information

(<6 years old)

Date: _____

Name:	Date of birth (Month/Day/Year): Please circle sex: Male Female
Home Address and Phone Number: E-mail:	Names of parents or guardians:
Family Medical Doctor:	Referred by: <input type="checkbox"/> Friend/Family <input type="checkbox"/> M.D. / D.C. <input type="checkbox"/> Internet/Add
Name and ages of other children:	Work Number:

Why this form is important:

Our office focuses on your child's ability to be healthy. Our goals are to first address the issues that brought you and your child to this office, and second, offer the opportunity to improve your child's health potential in the future. Life activities include events that cause damage. This damage builds layer upon layer even to levels at which you may **not yet be aware**.

Research is showing that many of the health challenges that occur later in life have their origins during the developing years, some starting at or before birth. We need to know what your child's layers of damage contain, so we ask you to carefully and completely fill out this detailed and important form.

Reason For Today's Visit

Labour and Delivery

| <input type="checkbox"/> Pertussis (Whooping Cough) _____ | <input type="checkbox"/> Chicken pox _____ | <input type="checkbox"/> Other _____ |

Other Health Concerns:

Important Note:

Chiropractic has helped children with many health problems like asthma, allergies, bed-wetting (nocturnal enuresis), colic, ear infections (acute and chronic), headaches, scoliosis, etc. Chiropractic care has also been shown to help prevent these and other illnesses from occurring and ensure children have a healthier life. To optimally prevent these, a child should have a chiropractic spinal exam as soon as they are born. Therefore it is important to get your other children's spines checked if they have not been checked.

I hereby authorize the Doctor to examine and treat my condition as he deems appropriate through the use of Chiropractic Health Care, and I give authority for these procedures to be performed. I have been informed of the Clinic's financial policy and agree that I am responsible for all bills incurred at this office
